Connectivity at all levels

Star believes it is your choice that is important and we have to provide the printer for the Tablet solution you want to use, according to your budgets and in-store/out-of-store needs.

Star is widely acknowledged as the leading hardware innovator in the move from the more expensive traditional POS terminals to Cloud connected Tablet POS featuring lower cost hardware that can be mobile or fixed and easily upgradable as the business grows.

Coupled with Cloud connected software that is flexible, low cost and progressively scalable according to market developments and individual business needs, Tablet POS is being increasingly chosen over traditional POS across retail and hospitality with Star printers, once again, producing the final receipt.

Apple iOS Tablets

Probably the most popular choice of tablet to date for retail and hospitality for many reasons. Apple's stylish design and proprietary operating system has created an environment for a wide choice of Cloud connected POS solutions. Typical printer communication has been achieved via Bluetooth and Ethernet/LAN. However, Star's position as the leading innovator for Tablet POS has resulted in the introduction of 2 UNIQUE targeted iOS solutions; **TSP654II AirPrint™** and **TSP143III USB**, the only printer able to 'connect' and charge via the Apple lightning cable.

Windows Tablets

A great choice for many as it is the fastest route to mobile from the current in-store operating system. Windows has been traditionally the most successful OS for in-store business to date and provides IT managers with existing infrastructure for remote management etc. Star provides a wide range of drivers for Windows including JavaPOS & OPOS support for your chosen POS application with easy install for Bluetooth, WiFi, Ethernet/LAN and USB use – just check your Windows tablet provides additional charging via USB.
