THE MOBILE POINT OF PURCHASE SOLUTION

"Compact & Elegant"

Bluetooth®

Full specifications on www.Star-EMEA.com

For POS at its most elegant, Star's mPOP meets your business needs.

Outstanding connectivity and design, plus intuitive functionality and simple integration are delivered ready to work with your chosen mobile software and card payment system…welcome to a new era for mPOS.

Advanced mobile devices and app software have opened up new avenues for retailers. At Star Micronics we've developed the world's first conceptually driven, combined point of purchase cash drawer and printer in response to the need for an easily integrated mobile POS system.

mPOP works with all major mobile operating systems including Apple iOS, Android and Windows, giving retailers the freedom to use the platform that works for them.

iOS Windows GET IT ON Google Play Download on the App Store

SIMPLE & Easy-to-use

JUST one power cable is needed to charge multiple devices, operate scanners, as well as run the printer and cash drawer courtesy of the 2 x 1.5A and 2 x 0.5A USB host ports. An optional iOS Y cable option can provide 2.4A for the iPad Pro. The mPOP LCDs will let you know pairing status as well as any issues such as paper out, whilst Apple's auto reconnect feature will automatically re-pair Apple devices.

Security

The mPOP can be attached to a counter using the desk clip provided or with a 3rd party Kensington lock cable system. Any tablet stand can be used with the mPOP. However, the tablet stand provided with Star's POPPack option is attached to a heavy, metal plate and provides peace of mind whilst retaining the ability to separate stand and mPOP for transport at end of day, if required.

Reliable 100mm/second printer

with intuitive top loading & easy front feed, the printer uses anti-curl direct thermal receipt paper which does not need ribbons or toner and is readily available. The partial cut guillotine automatically cuts the 58mm wide receipt so it won't drop on the floor. Simple paper loading – just push the front printer panel and press the easy release lever to drop in the paper roll and then print.

Functional but compact cash drawer

A clean, fast drawer release reveals 6 coin holders capable of taking full bank bags of coins and 4 upright note dividers. There is a low cost 8 coin option if required. Higher value notes can be stored securely under the coin inserts and a software lock provides extra security.

Need Software?

www.mPOP.com will put you in touch with the latest Mobile POS, Retail and Hospitality software that suits you and works with Star's mPOP. Offering all the advantages of Mobile POS – lower cost hardware and software that works in the Cloud as well as off-line, giving you access to your business anywhere – again you choose!

You Choose

"Use your own tablet, smartphone or laptop and payment device"

Tablet and phone not included

Need a bigger Cash Drawer

If your business grows as quickly as you hope, then you can easily add a 2nd cash drawer under your counter. Just purchase a low cost black or white CB2002 from Star and plug the cash drawer cable into the mPOP's versatile range of ports at the base of the unit. Your software or your mPOP may be programmed to open this drawer separately or at the same time as your mPOP, giving you a more hidden location for all that extra cash!

mPOP™

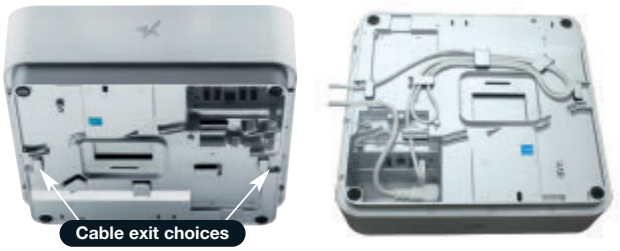
THE MOBILE POINT OF PURCHASE SOLUTION

▶ Compact, stylish and functional

Just 10cm high and 30cm wide, the mPOP unit will sit happily in retail and hospitality environments.

▶ Effective cable management

Enhanced cable routing and various cable exit options maintain the sleek design in your retail environment.



What else is new from Star?

Star revolutionises POS terminal device choice with DIRECT iPad Receipt Printing via the standard iPad/iPhone/iPod USB-lightning cable.

If you prefer a separate cash drawer and receipt printer POS solution, Star's **TSP143IIIU** provides direct connection and charging for your iPad via a standard lightning cable. The direct cable connectivity means it is fast and easy to self-install with a built-in power supply – no bulky transformers to hide away or become disconnected by accident. The hard-wired aspect of this printer means that your receipt printing and cash drawer trigger functions will always be available and not Wi-Fi dependent.
